1. SCOPE

In discharging this overall responsibility, the Council is also responsible for ensuring that there is a sound system of internal control which facilitates the effective exercise of the Council's functions and which includes arrangements for the management of risk.

2. THE SYSTEM OF INTERNAL CONTROL

The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives; it can therefore only provide reasonable and not absolute assurance of effectiveness. - a) to identify and prioritise the risks to the achievement of the Council's policies, aims and objectives;
- b) to evaluate the likelihood of those risks being realised and the impact should they be realised;
- c) to manage them efficiently, effectively and economically.

The system of internal control has been in place at the Council for the year ended 31 March 2019 and up to the date of approval of the annual report and accounts and accords with proper practice as laid down by the Council's Financial Regulations updated in May 2018.
