

Present: Mr. P. Watts, Mr. B. Cole, Mrs. G. Squires. Mr. J. Harvey.

Apologies: Mrs. A. Harris.

Item 1

The Committee sees merit in removing the hedge on Barracks Road adjoining the Champernowne Estate creating parking to improve the traffic situation at school time and the safety of the children. The hedge no longer has a function and the removal will add to the children's safety walking along Barracks Road. The Community will also benefit with very little aesthetic cost. The parking bays would improve disabled access.

This is an opportunity to come together to resolve a situation on which has been a serious problem for many years. By means of a community sponsored project to help to cope with the expanding numbers of pupil and residents.

The Group recommend this proposal to Modbury Parish Council and a clarification of potential seed funding is requested to support the initial plans and appropriate structural considerations needed to take the project forward. The Group request that these funds are ring-fenced for this project or other parking projects in the future .

ITEM 2 :

The Group wishes to carry out a pilot scheme to mark out some parking indicators or bays using the method as in Poundwell Square. If successful the Group may recommend further extensions of the trial. The pilot will commence in Scholders Lane as the group feels this may help to accommodate more cars in available areas.

The meeting closed at 7.40pm.
